

# HILINE HAPPENINGS

July, 2022

Welcome to HiLine's monthly newsletter, bringing customers up to date on new featured flooring products from our partners, upcoming flooring and design events (some hosted by our HiLine team), as well as introducing you to our company's key resources to utilize.

## Featured Products:

### FLEX FROM ZANDUR

Well known for its unparalleled durability and ease of maintenance, Flex Solid Rubber is manufactured with a unique blend of Nitrile Rubber, natural fillers and environmentally safe pigments and additives. Available in a wide range of colors, Flex is perfect for use in commercial applications where ease of maintenance, durability and a long service life are required.

### FLEXCO DELANE ESD VINYL

The effects and annual losses attributed to electrostatic discharge (ESD) are estimated to run into the billions of dollars just in the electronics industry alone. To control the static charge, FLEXCO® combines conductive or dissipative vinyl tile with a specially formulated conductive adhesive. This creates a conductive pathway which allows static to flow through the tile and along the adhesive to the ground point.

### SURFACE EDGE COMMANDER

Surface Edge's waterproof Commander SPC Click contains six layers for enhanced durability and sound reduction--a protective coating, wear layer, décor layer with high resolution print film made to look like any surface, a blend of PVC and Calcium Carbonate core layer, locking system, and sound layer.
